**HARRY MILLIGAN**  
July 17, 1927 - February 26, 1990

February 26, 1990 saw the passing of a great family man as well as a caring and sharing friend. Since 1967 he had been an ardent Collector of Canadian Sealers as well as pertinent information truly earned him the title of "MR. COLCASEA".

Throughout this time he travelled, communicated, gathered, shared and became an integral part of our thirst for glassmaking history.

This book has been completed to ensure that his research, anecdotal records, pictures and knowledge will continue to be read and used by collectors everywhere.

Our sincere thanks to the Milligan family for sharing with us this valuable accumulation of information.

This research will allow for many hours to be enjoyed in Harry's memory.
